(See methodology)

Methodologies employed

During a whole week of dumping (far from their workroom), the participants develop a series of encheminées activities on second thought about their future professional, the knowledge of the laboral world and the company and to put in practice the professional capacities by means of:

- Presentable formation(Round Table and conferences)
- Visits of companies
- Workshops of working search (knowledge of needs and demands of the company)
- Workshops of fitness professional
- Technological Workshops of innovation: design of products and/or innovative services by means of specialists of various sectors.
- Development of capacities of communication by means of techniques of presentation and conversations
- Method of the case

Profile of the professors/tutors/mentors

Professors of university, experts in techniques of communication, consultant

Results at the end of the activity/formation

Presentation of the result of the activity of creation of the service or of innovative products. Every participant presents his product and there is a competition

Is it a pioneer experiment? When did it start?

The first edition was made in 2000-01. This year will be the 5th

Impact, Evaluation, Results (4 lines)

Every year there are about fifty participants (on average, 10 by university)

Deficit (4 lines)

Every year, the program is analyzed by universities for its evaluation and we introduce modifications to improve it.

Future and durability (4 lines)

The department of education and university like that the program continues. The responsible for the organization is, every year, one of the universities, by rotation, but the others bring the professors or the experts

Comments:

IDENTIFICATION OF METHODOLOGIES OF SUCCESS OF TRAINING OR ACCOMPANIMENT OF the RESEARCHERS - CHECK LIST TO CARRY out the IDENTIFICATION -

Name of the course, system of accompaniment, activity, program...
Days on the laborale insertion after the doctorate

Organization which plans the activity:
The Catalan public universities with the support of the Department of University, Research and Information society of the Generalitat de Catalunya

1. TECHNICAL DATA

CRITERIA	ÉVALUATION	To indicate with one X
Channels of diffusion/communication	INSUFFICIENT	
	REGULAR	
	WELL	
	VERY WELL	
	EXCEL	
Flexibility of schedules and places	INSUFFICIENT	
	REGULAR	
	WELL	
	VERY WELL	
	EXCEL	
Resources (TIC) provided to develop the formation/' accompaniment on the place of work	INSUFFICIENT	
	REGULAR
